Year Established: 2003

Registration number: IT/CERT NO: 16069

Registration Body
Corporate Affairs Commission, (Companies and allied matters decree No. 1, 1990)

OUR VISION

To be among the biggest and best organization in the world making sustainable difference to hundreds of millions of women globally with a target to produce the healthiest generation ever.

OUR MISSION

WFI is set to produce a society that is egalitarian and offers equal opportunity for productive development, people participation, community leadership, independence of voluntary action, reflection of social and cultural choice and a genuine partnership with other sectors on a “best practice” basis as a catalyst for healthy living, sustainable development and poverty reduction.
1.0 OUR TARGET GROUPS

1.1 AIMS AND OBJECTIVES

Our objectives are to:

- Improve the health and well-being of women, infants, children through innovative SRH information and services
- Provide information and services that will increase young people’s access to – and the quality of – reproductive health services by developing, expanding and institutionalizing youth-friendly services in a variety of settings
- Strengthen the institutional capacity of the community oriented structures so they can better plan, implement, manage, and sustain programs and services.
- Enhance integration of sexual and reproductive health including HIV/AIDS into existing livelihood skills development
- Enhance training programs for youth to provide youth-to-youth community based activities.
- Support meaningful improvement in the social, legal and policy environment for access to comprehensive sexual reproductive health and rights
- Conduct and carry out research on the various challenging issues facing women’s health in Nigeria and make recommendations for improvements
- Act as an information and reference center on women’s reproductive health in Nigeria.
- Provide financial support for joint activities and action research in health to women’s organizations, in particular but not limited to those at the grassroots level.
- Provide support for the amelioration of the negative impact of widowhood.
- Support efforts geared towards reducing the spread and mitigating the impact of STD/HIV/AIDS among women.
- Support economic and social engineering activities aimed at empowering women and improving their social status.
1.2 CORE VALUES

1.3 SUBSTANTIVE AREAS OF WORK

Women Friendly Initiative (WFI) is premised on providing succor to the less privileged. Since incorporation in 2003, we have programmed in several areas ranging from health; sexual & reproductive health, sanitation/hygiene promotion, maternal and child survival initiatives, integration of family planning with HIV prevention among positive clients environmental sustainability, health systems strengthening, human development, civic education, good governance (empowering women for electioneering positions) education especially for the girl child, vocational skill acquisition, functional literacy, income generation & economic empowerment for Indigent women in rural & urban slums across several states in Nigeria.

Our goal is to strengthen local institutions, structures and entities that enhance community’s health, economic, social welfare and entrenchment of women’s rights. WFI is committed to empowering women, especially the less privileged, to overcome social, economic and cultural barriers that limit their ability to make fully informed choices, particularly in the areas affecting the most intimate aspect of their lives- their reproductive health.

1.4 CORE AREAS

- Comprehensive Sexual and Reproductive Health and Rights including HIV prevention, care and support
- Interconnectivity at the grassroots
- Opportunity for functional literacy for disadvantaged
- Economic empowerment for the deprived, excluded and vulnerable populations
- Advocacy for policy reforms and implementation
- Security and Crime prevention
- Gender equality
- Preservation of healthy culture
- Training of SRH Human Resources
- Media Based Activities
- Behavior Change Communication
- Fund Raising Appeals and Campaigns
- Water, sanitation and Hygiene
1.5 OUR STRATEGIES

Comprehensive Sexuality and Reproductive Health and Rights including HIV Prevention, care and supports.

- System strengthening and capacity building of birth attendants
- Facility upgrade and supply of equipment
- Youth friendly services
- Integrated RH service delivery
- Institutionalization of SRH services.
- Engage public/private/faith based partnership for comprehensive SRH advocacy and service delivery

Strengthen capacities of local and professional cultural groups for advocacy, Theatre for Development (TFD) and entrepreneurship.

- Engage in vigorous education programmes to re-orient Nigerians to support healthy culture.
- Advocate for qualitative mass education to promote cultural values and norms
- Collaborate with Tourism Boards, Performing artists, Ministry of Cultural and Social Orientation to entrench healthy culture.
- Encourage and support local, national and international arts and exhibitions, regional integration and international networking.

Skill acquisition training, equipment and supplies to the less privileged

- Micro-credit facilities and revolving loans to support groups, deprived and indigent persons
- Advocate that socio-economic rights are made JUSTIFIABLE i.e. Education, work, shelter etc.
- Design programmes to improve the economic well-being of the people – women & rural dwellers
- Strengthen capacity of low and mid-income earners for target investment.
Interconnectivity at the grassroots

Encourage political participation and political empowerment of women by developing their capacity, creating awareness and securing an enabling environment for women's participation in the political process.

Encourage and facilitate the participation of women in various aspects and phases of the electoral cycle, including voting, nomination, candidature, campaigning, and analysis of recent electoral experience to draw lessons for future elections.

Build grassroots support to inform community participation in health and cultural issues.

Establish and sustain community driven projects/systems.

Utilize community structures (NGOs, CBOs, FBOs, Associations, etc) to provide reproductive health and socio-cultural programs.

Design and implements grassroots, community driven programs that is supportive for enabling environment for SRH information and services.

Gender equity

Strengthen institutional capacity to support advocacy for gender balance in decision-making process.

Education and elimination of gender discrepancies at all levels.

Support and strengthen institutions that address domestic violence-prevention, defense and justice/social support.

Build support systems for compulsory women/girl child education, elimination of gender related practices—early marriage, female genital mutilations, child trafficking, sexual harassment etc.

Enhance civic knowledge, civic skills and civic disposition in communities where we work.

Strengthen the ability of citizens and civil society groups to organize themselves, interact with others, and make their voices heard by those in power.

Encourage political participation and political empowerment of women by developing their capacity, creating awareness and securing an enabling environment for women’s participation in the political process.
2.0 PROJECTS

2.1 WATER AND SANITATION

Beneficiary sites:

- Esan West LGA; Urohi and Oke – Emuhi, Ovia-West LGA, Edo State
- Urhobo Camp – Iguelaio, Delta state
- Kuje Market – FCT, Abuja

Key outcomes:

- Water supply sources completed and delivered to community.
- Water Source protected and barricaded.
- Sanitation committees set up, in place and functional.
- Waterless and odourless toilet constructed.
- Urine separation and utilization of urine fertilizer by farmers
- Composting of fecal matter
- Women Friendly toilet with menstrual pad disposal

2.2 WFI AGED FORUM

WFI Aged forum was established to identify the special needs and requirement that are unique to the elderly; to also help the aged enjoy a life of rest, comfort, security and active participation in the cultural and political life of their community.

OBJECTIVES

- To develop, update and refine the strategy for improving the welfare of elderly persons.
- To conduct researches, advice government, local authorities, communities and other stakeholders on issues affecting the old persons.

OUR SERVICES

- Counseling services
- Free health-check and treatment
- Nutritional supplement
- Organize talks and workshops on financial affairs in retired life income support to older people
- Recreational services (Indoor/out-door games, picnics, library services etc...)

80% migrated to the 4th round of loans following business expansion.
48 Youth Peer Educators (28 Females and 20 Males) trained to counsel peers on preventive RH behaviour and distribute non-prescriptive contraceptive methods (pills and condoms) and make referrals to static facilities for other services.
**Skill acquisition session for in and out of school youth organised by WFI**

**2.5 POST CONFLICT RESOLUTION**

**Beneficiary communities:** Zaki Biam post communal crisis rehabilitation project

**Key outcomes:** Clothing, food items and RH services provided to 750 IDPs in camps. Rehabilitation support provided for easy return following the end of crisis

**Cross section of supported IDPs – Zaki Biam post communal crisis**

**Beneficiary site:** Ujuogba/Akugbe Market access road, Edo State.

**Key outcomes:** 4.2km laterite road built and graded to allow farm products get to the market in good conditions. Road in use.

**2.7 HUMAN RIGHTS**

**Beneficiary sites:** Biliri, Kaltungo and Gombe LGAs, Gombe state

**Key outcomes:** Law on Widowhood rights and free and compulsory girl child education now in place in Gombe state following project work.

**2.8 HEALTH**

**2.8.1 PRIMARY HEALTH CARE DRUG REVOLVING SCHEME**

**Beneficiary sites:** Alkaleri and Darazo LGAs, Bauchi state.

**Key outcomes:** VDC committees revived and drug revolving scheme functional in Alkaleri and Darazo LGA

**2.8.2 HIV/AIDS**

WFI is implementing programs aimed at reducing the incidences of new infections, through increased access to free testing and counseling; condom promotion and distribution; increased awareness at grassroots level through community mobilization and engagement; referral and linkages; provision of escort services for PLHIV to access treatment; provision of livelihood opportunities and home based care.

WFI currently host a support group for people living with HIV/AIDS and also serves as a secretariat for Area Council Committee on HIV/AIDS (ACACA).

**2.8.3 COMMUNITY CAMPAIGN FOR CANCER CONTROL**

WFI in line with her vision of producing the healthiest generation ever is implementing a cancer awareness and prevention project in Kuje Area Council of the Federal Capital Territory. Our project priorities are breast and cervical cancers for females and prostate cancer for males. This is aimed at the eradication of cancer related morbidities and mortalities.
Cancer awareness targeting commuters on a market day

Funded By Ford Foundation
WFI in collaboration with Federal Ministry of Health (FMoH) and National Primary Health Care Development Agency (NPHCDA) implemented programs aimed at improving adolescent and youth friendly health services (AYFS) at primary health care facilities in Nigeria.

ACHIEVEMENTS
- Development of National guidelines on Promoting Access of Young people to Adolescent -&- Youth Friendly Services in Primary Health Care Facilities in Nigeria.
- Development of National Poster supporting Access of Young people to Adolescent -&- Youth Friendly Services in Primary Health Care Facilities in Nigeria.
- Integration of AYFHS at PHC level of care, in Nigeria.
- Establishment of Adolescent and Youth Friendly Centers (equipped with indoor and outdoor games) in six states selected from each political zone in Nigeria.

WFI pilot Youth Friendly Centre Kiyi community, Abuja

2.8.5 BUILDING LOCAL CHAMPION FOR RMNCH ADVOCACY

To promote access of young people to health services through sustained advocacy for the implementation of the “National Guidelines on Promoting Access to Adolescent and Youth Friendly Health Services (AYFHS) in Primary Health Care (PHC) facilities in Nigeria”.

Beneficiary site
Kuje Area Council

Key outcomes:
At least 50 community stakeholders and 50 youth leaders trained on the application of the national guidelines to increase demand at PHCs in Kuje Area Council.
Increase in the number of adolescent and youth aged 15-24 that accessed services in PHCs in targeted communities.
6 PROMOTING OPTIMAL NUTRITION FOR WOMEN OF REPRODUCTIVE AGE AND CHILDREN

WFI implemented a project aimed at addressing the problem of malnutrition among Women of Reproductive Age (WRA) and children under 5 years of age in the Federal Capital Territory (FCT) by securing and increasing the commitment of stakeholders to appropriate and release funds for the National Strategic Plan of Action for Nutrition implementation through a mix of advocacy, capacity building and behaviour change communication.

To complement its advocacy efforts, WFI expands her service delivery mandate on nutrition to include provision of food and nutritional supplement, referral services, food demonstration, Nutrition education, growth monitoring, Nutrition assessment and counselling, etc.

Beneficiary sites:
Kuje Area Council of FCT

Key outcomes:
38 Nurses, Midwives, CHEWs trained on MCH, 5 PHCs, Kuje general hospitals equipped, pregnant women reached with health talks on EBF, PMTCT, complementary feeding and demonstrations, male RH champion clubs instituted and helping to mobilize for services.

WFI developed Advocacy kit for Optimal Nutrition for Women of Child Bearing age and children under five in the Federal Capital Territory in display at the National Primary Health Care Development Agency (NPHCDA) during its planning meeting for 2018 breastfeeding week.

National Mid-wives Service Scheme (MSS) members benefit from the capacity building program on Maternal and Child Health
2017 World Breastfeeding week rally by WFI supported mothers

Monitoring visit to one of the private health facilities trained on Maternal and Child Health

Beneficiary sites:
Kuje Area Council of FCT, Abuja

Key outcomes:
- Health providers trained on basic family planning, PAC, CLMS.
- 5 PHCs, 10 private clinics equipped with FP commodities, MVA kits, Misoprostol tablets, men and women of reproductive health reached with FP, PAC services.
OBJECTIVES

To engage and strengthen partnership and alliances for substance abuse prevention amongst commercial motorcycle (Okada) Riders Association (CMRA) specifically targeting adolescents and young CMRAs members aged 15-24 years.

To build capacity of Motorcycle Riders Association (CMRA) leaders for youth education on substance abuse prevention.

ACHIEVEMENTS:

Collaboration with Okada Riders Executives, Federal Road Safety, Nigerian Police, NDLEA and medical unit of Kuje Area council ensured project success.

Increase awareness and sensitization on Substance Abuse Prevention. At least 1800 Persons were reached with information on Substance Abuse Prevention.

Improved community relationship on Substance Abuse Prevention through Coalition of substance abuse prevention (C-SAP).

2.8.9 PROMOTING DRUG FREE SOCIETY AMONG VULNERABLE POPULATION

Funded By United Nations Office on Drugs and Crime (UNODC/DAPC)

WFI implemented programs aimed at advancing the health and development of young people, women and communities in relation to substance abuse prevention through a grant from United Nations Office on Drugs and Crime. The project centered on substance abuse prevention among commercial motor cycle riders in the FCT. A major component of the project was working with identified youth to identify spots highly prone to drugs and substance use and conduct specific campaigns on prevention in the community.

WFI sensitization rally on substance abuse prevention
2.9 PROMOTING COMMUNITY POLICING FOR CRIME PREVENTION IN NIGERIA

Funded by the Canadian Fund for Local Initiative (CFLI) WFI implemented a project aimed at strengthening community structures for crime prevention in FCT. The project particularly focused on grassroots’ crime prevention mechanism through education and linkage to security agencies. This became very imperative as a result of the security challenges that besieged the nation. Stakeholders such as Traditional heads, Vigilantes, head of schools, union executives etc. were trained to report crimes in their locality.

There is no gainsaying that this contributed immensely to quell the trepidation that characterized the daily activities of the populace.

The project focused on increasing access to new innovative Sayana press injectable and community based access to misoprostol.

2.10 PROMOTING NEW TECHNOLOGIES FOR REPRODUCTIVE HEALTH AND RIGHTS

Funded By Planned Parenthood Global (PP Global) WFI implemented programs aimed at strengthening impact and broadening the reach of integrated and comprehensive sexual and reproductive health services, particularly for young people and vulnerable population

The project focused on increasing access to new innovative Sayana press injectable and community based access to misoprostol.

2.11 COMMUNITY SYSTEM STRENGTHENING ON HIV/AIDS, TUBERCULOSIS AND MALARIA SERVICES

Funded by Association for Reproductive and Family Health (ARFH) Women Friendly Initiative implements community system strengthening (CSS) project, aimed at educating community members with basic knowledge on prevention, treatment and management of HIV/AIDS, Tuberculosis and Malaria diseases through referral linkages to health care facilities in Kuje Area Council. In addition, on site testing and counseling is conducted.

The project focused on increasing access to new innovative Sayana press injectable and community based access to misoprostol.

Community sensitization awareness on HIV/AIDS, Tuberculosis and Malaria services
WFI staff and health care provider sensitizing rural slum dwellers on environmental hygiene

2.12 WORKING WITH ORPHANS AND VULNERABLE CHILDREN

WFI implements orphaned and vulnerable children (OVC), care and support services in FCT. The project is aimed at improving the health and well-being of vulnerable children and their families in FCT by providing health care, shelter, education, protection, nutrition, psycho-social and household economic strengthening following the Nigerian National Guidelines on OVC.

WFI community Volunteers (CV) conducts OVC/Household enrollment in urban slums and rural communities in kuje. WFI also provides educational “block Grant” support for OVC pupils in Primary Schools.

OBJECTIVES

- Establish and/or strengthen recreational play centers for club activities
- Provide community based OVC services for over 2000 children.
- Provide logistic support for accessing palliative care, OVC services and referrals for HIV positive children.
- Provide conducive and safe environment that supports optimal growth and development of the child
- Provide formal and informal education for OVC
- Provide basic nutrition education to prevent malnutrition.
- Ensure that every child has legal protection (birth certificate, etc)
- Empower OVC household for continued sustainability.

Care givers on OVC program empowered to start up Income Generating Activities with traditional head of beneficiary communities and WFI staff

Community sensitzation and engagement for OVC program implementation.

Training session for Community Volunteers on Sustainable Mechanism for Improving Livelihood and Household Empowerment (SMILE) project

Community Volunteers during one of their monthly Review Meetings
2.13 SCHOOL SUPPORT
WFI school support services comprise three distinct programmes viz-a-viz;

- School Health Club
- Inter-school competition
- Orphans’ schools support program

2.13.1 SCHOOL HEALTH CLUB
School Health Club is instituted to complement school regular curriculum in health education and sex education. WFI instructors go to various schools on weekly basis to educate pupils/students on sex and health issues. The aims and objectives of this club include;

- To introduce the students to importance of imbibing good hygiene habits
- To enable the students take decisive decisions and actions about sexuality
- To sensitize the female students on how to make right decision with opposite sex without intimidation
- To acquaint them with dangers of early sex and HIV infections
- To inform students about signs of puberty (e.g. menstruation) and how to tackle it.

2.13.2 INTER-SCHOOL QUIZ COMPETITION
WFI annual inter-school competition was instituted to encourage gifted and brilliant students in the society. The best three schools are handsomely rewarded with material gifts such as water dispenser, refrigerator, Fan, educational materials, etc. In addition to the prizes won by the winners, consolation prizes are also given to all participants and school represented. The project is singlehandedly financed by WFI board of trustee.

2.13.3 ORPHANS SCHOOL SUPPORT
The program is specifically designed to assist orphans in schools. Our aim is to stand in the gap for students who ordinarily would have dropped out of school as a consequent to the death of their parents. At the beginning of every school academic session, WFI goes to their various schools to defray their school fees bill and distribute other materials.
WFI provides block grant to schools for school fees waiver for its OVCs

2.14 WOMEN EMPOWERMENT AND POVERTY ALLEVIATION

Women, old or young are important to us in WFI and due to traditional and cultural practices; widows suffer un-anticipated plights after the death of their husbands. In this regard, WFI has instituted sustainable support programs for women (reproductive age, aged and widows) group since 2004. The programs include:

- Vocational skill acquisition program
- Micro-credit program
- Aged women support program

2.14.1 VOCATIONAL SKILL ACQUISITION

WFI skill acquisition program is instituted to empower active but less privileged women in our society. No fewer than 5,000 women and Youth have benefited from our various vocational schemes since inception. Areas of coverage include:

- Tailoring and fashion designing
- Hairdressing
- Gele tying and Adire making
- Pottery
- Cake baking/cake decoration
- Beads and hat making
- Fish farming and cottage poultry farming
- Dry season vegetable farming

Each of the schemes has a training duration of 3 months after which final task is given and exhibited. The successful ones are assisted with startup capital usually in the form of machine or equipment acquisition.

2.14.2 MICRO-CREDIT/LOAN FACILITIES

This is our micro-finance program. It is targeted at the active poor women in our society. It involves provision of interest free micro-loan and micro-credit.

Annually, WFI BOT approves a lump sum of money for onward lending to economically active poor women with maximum single disbursement of N50,000 each payable within 12 months. This amount is released as revolving credit facility to the group. No interest rate is attached but a flat rate of 1% of amount disbursed is taken as service charge.

2.14.3 WFI AGED WOMEN SUPPORT PROGRAM

WFI aged women support program was established to provide sustainable support program for aged women and widows, who due to traditional and cultural practices suffer discrimination and neglect after the death of their husbands.

OBJECTIVES

- To strengthen relationship, promote peaceful co-existence, unity and love among widows.
- To enhance independency among widows through financial empowerment and capacity building.

SERVICES

- Counseling services
- Free health-check and treatment
- Vocational skill acquisition
- Micro Credit/loan facility

Graduating widows from WFI skill acquisition scheme on fashion design display their sewing machines
WFI Widows empowered with loans

2.15 MEDICAL CARE SERVICES

WFI Medical Intervention Program is instituted and financed by WFI BOT to create opportunity for new born and sick people who could have died for lack of money or resources needed for treatment to live. WFI visits government hospital within Abuja environs on weekly basis in search of patients with WFI Health services department; finance challenges. We have on several occasions had to defray hospital bills of some patients who are unable to pay for hospital services. On few occasions we have received letter of assistance from hospital authority to provide charitable services affected patient especially in the area of abandonment of new born. What we do in such cases is to provide the immediate medical needs and to ensure such new born gets to appropriate motherless home. This program has been sustained for years and shall continue to exist as long as WFI exists.

Women Friendly Initiative (WFI) is a non-profit organization. It has a 7-man Board of Trustees which decides the major issues and decisions are ratified by this Board. It is led by Chairman, Vice-Chairman, General Secretary, Secretary and the Treasurer.

The accounts of the organization are audited every year and sent to the Federal Inland Revenue Service (FIRS) – Tax Department for clearance. WFI has 5 States (Lagos, Edo, Kano, Gombe and Bauchi) offices in addition to the head office in Abuja. Every State has a number of key program officers – project coordinator and accountant.

WFI Volunteer Force: WFI has raised a Volunteer Force of nearly 150 persons. This includes Youth Peer 17 Providers, Depot Holders, Traditional and Mission based attendants, male RH champions, and expert clients. These groups of volunteers engage people/peers in health talks providing sexual and reproductive health information and services, reaching them with non-prescriptive FP methods and other services; VCT, Pregnancy tests and referrals.
